To Whom It May Concern

Recommendation for Rene Vutborg

Rene Vutborg has worked for me as an IT developer and as a Project Manager for the last 3 years.

His responsibilities have included web developing, project management and contact with customers.

Rene has worked with large web projects where he has worked with the technologies:

C#, ASP.NET, Microsoft SQL Server, Visual Studio, Web Services and Microsoft Entity Framework.

Rene has outstanding organizational skills. He is able to successfully complete multiple tasks with favorable results despite deadline pressure.

Rene is highly respected by his co-workers for his knowledge and to help anyone at anytime. During his time here he had an amazing impact on how to develop and manage project. I would highly recommend him for a job as a Developer or Project Manager.

If you have any further questions regarding Rene or this recommendation, please do not hesitate to contact me.

Sincerely

Jens Elung
